

**People ∞ Ethnicity ∞ Age ∞ Community ∞ Engagement**

**March 2017**

**To whom it may concern**

After successfully applying to the Big Lottery Fund's **Celebrate** programme, The PEACE (People, Ethnicity, Age, and Community Engagement) Project; a cross borough partnership between PLIAS Resettlement and Nubian Life Resource Centre has been awarded £10,000 which will be used to create a PEACE Wall to be unveiled in September 2017 to coincide with World Peace Day.

The intergenerational project will work with communities from all cultural & faith backgrounds to create a Peace Wall consisting of Peace Quotes, from residents of the two London Boroughs of Brent and Hammersmith & Fulham; aimed at reminding, informing, educating and raising awareness about the importance of peace at an individual and community level.

**The project is an exciting initiative consisting of:**

- 2 community Peace meals; residents, faith and community groups and prominent figures, will be asked to write a sentence/quote on why peace is important to them and how can it be achieved locally and maintained
- An intergenerational Expression of Peace Competition for schools and older people services
- Unveiling of the PEACE Wall – a collection of the quotes collected throughout the project

**The project will:**

- Cement relationships across various communities
- Help to break down barriers of misunderstanding
- Improve the quality of relationships
- Improve the quality of life for all
