

SpirIT UK is a LASA approved, award winning ICT Consultancy offering a complete IT service, unique and specially designed for the Third Sector\*. In fact everything you need from an IT department at a fraction of the price and no compromise in quality.

Our passion is to deliver robust, high quality solutions using technology to enhance and provide excellence for our customers. We have successfully rescued organisations from their old inefficient and corrupted IT systems and created fresh, effective and responsive IT solutions to take these organisations forward, allowing them to reduce their costs, resulting in greater investment in their core functions. We understand the budget challenges facing our valuable UK charities and with our guidance our 3rd sector customers have reported an increase in efficiency and typical savings of between 40-80% on their IT running costs compared with previous years.

**We take pride in all we do and offer the following high quality services:**

- ❖ Affordable ongoing IT support with a friendly, UK-based helpline
- ❖ Competitive pricing on hardware, software & consultancy
- ❖ Office moves, installations, upgrades and system overhauls
- ❖ A great team of experts who go the extra mile
