

# Help improve health research for patients undergoing open heart surgery

Patient Engagement in Clinical Development (PECD) Service

Are you patient or carer of someone who has had heart surgery? We need your help to share your thoughts on a new study to reduce bleeding during surgery.

## 1 Who we need

We are looking for **6 to 8 patients or carers** who:

- Live in the UK and are 18+.
- Have had heart surgery
- Can use a computer/tablet to read Word docs.

## 2 What you will do

You will review draft documents for a new research study.

- Read info sheets written for patients.
- Check if language is clear & sensitive.
- Help make the study better for patients.

## 3 Time involved

- It will take around **2 hours** of your time.
- You can do this from home.
- You have **10 days** to send feedback.

## 4 Payment

We value your time and expertise.

You will receive a payment of **£55**

## Interested? Apply Now
